In+Care Report For Quality Management Committee
04/02/14

All data compiled for in+care measures are based on ARIES.

Retention Measure 1: Gap Measure	
Measurement Timeframe: Measurement year 12/01/12 – 11/30/13	
Percentage of patients, over the age of 24 months, with a diagnosis of HIV/AIDS who **did not** have a medical visit with a provider with prescribing privileges in the last 180 days of the measurement year	
Numerator	Number of patients who had a medical visit in the first 6 months of the measurement year and no medical visits in the last 180 days of the measurement year
116	Submitted 4/2/14
Denominator	Number of patients, over the age of 24 months, with a diagnosis of HIV/AIDS who had at least one medical visit with a provider with prescribing privileges in the first 6 months of the measurement year
1,335	Submitted 4/2/14
Goal is to have a low percentage	
9%	**Orange County Percentage**
9%	**California Percentage**
15%	**National Percentage**

Retention Measure 2: Medical Visit Frequency	
Measurement Timeframe: 24-month period 12/01/11 – 11/30/13	
Percentage of patients, over the age of 24 months, with a diagnosis of HIV/AIDS who had at least one medical visit with a provider with prescribing privileges in each 6-month period of the 24-month measurement period with a minimum of 60 days between medical visits	
Numerator	Number of patients with at least one medical visit in each 6-month period of the 24-month measurement period with a minimum of 60 days between first medical visit in the prior 6-month period compared to the last medical visit in the subsequent 6-month period
934	Submitted 4/2/14
Denominator	Number of patients, over the age of 24 months, with a diagnosis of HIV/AIDS with at least one medical visit with a provider with prescribing privileges in the first 6 months of the 24-month measurement period
1,177	Submitted 4/2/14
Goal is to have a high percentage	
79%	**Orange County Percentage**
76%	**California Percentage**
70%	**National Percentage**

Retention Measure 3: Patients Newly Enrolled in Medical Care	
Measurement Timeframe: Measurement year 12/01/12 – 11/30/13	
Percentage of patients, over the age of 24 months, with a diagnosis of HIV/AIDS who were newly enrolled with a medical provider with prescribing privileges who had a medical visit in each of the 4-month periods in the measurement year	
Numerator	Number of patients who had at least one medical visits in each 4-month period of the measurement year
38	Submitted 4/2/14
Denominator	Number of patients, over the age of 24 months, with a diagnosis of HIV/AIDS who were newly enrolled with a medical provider AND had at least one medical visit with a provider with prescribing privileges in the first 4 months of the measurement year
52	Submitted 4/2/14
Goal is to have a high percentage	
73%	**Orange County Percentage**
67%	**California Percentage**
55%	**National Percentage**

Retention Measure 4: Viral load Suppression	
Measurement Timeframe: Measurement year 12/01/12 – 11/30/13	
Percentage of patients, over the age of 24 months, with a diagnosis of HIV/AIDS with a viral load less than 200 copies/mL at last viral load test during the measurement year	
Numerator	Number of patients with a viral load test less than 200 copies/mL at last viral load test during the measurement year
1,869	Submitted 4/2/14
Denominator	Number of patients, over the age of 24 months, with a diagnosis of HIV/AIDS with at least one medical visit with a provider with prescribing privileges in the measurement year
2,163	Submitted 4/2/14
Goal is to have a high percentage	
86%	**Orange County Percentage**
79%	**California Percentage**
77%	**National Percentage**
