LOCAL PLAN MODIFICATION

PROGRAM YEAR 2007-08

The following are areas of supplemental information to augment or update the original narrative in the Local Plan and are not designed to replace existing information submitted in the original Plan or any modification thereto, unless otherwise stipulated.

I. PLAN DEVELOPMENT PROCESS

D. How were comments that were in disagreement with the draft plan considered in developing the final plan? In an attachment, include comments that represent disagreement with the local plan.

Comments received during the Public Comment period that appear to be in disagreement with this Plan Modification will be incorporated into "Attachment 5", page 24.

E. Describe the method used to make copies of the local plan available through public hearings, and through the local news media and the internet.

The Plan Modification was first made public through an Orange County Workforce Investment Board (OCWIB) Executive Committee meeting on September 21, 2007 and a public notice published in the Orange County Register. The Plan Modification has also been accessible on the OCWIB internet site at: www.ocwib.org. The public comment period will officially end on October 31, 2007.

II. LOCAL VISION AND GOALS

WIA Section 118 requires local plans to be consistent with the State Plan. In addition to California's Principles and Strategic Goals (WIAB99-2, Local Plan Instructions and Forms, page 3), please include strategies that reflect the Governor's four key priorities for California's public workforce system. The key priorities were not included in the Initial/Supplemental Planning Narrative pages or the One-Year Extension for Program Year 2005–06. They were introduced last year in the Guidance for Local Plan Modifications for PY 2006-07, via Addendum, item A.

The Governor's key priorities for California's public workforce system are:

- Understanding and Meeting the Workforce Needs of Business and Industry in order to Prepare Workers for 21st Century Jobs
- Targeting Limited Resources To Areas Where They Can Have the Greatest Economic Impact
- Collaborating to Improve California's Educational System At All Levels
- Ensuring the Accountability of Public and Private Workforce Investments

These four key priorities for California's workforce system are addressed in the Governor's vision for the system in more detail in Section I of the <u>State Plan</u>. Describe how your local vision and workforce development strategy is consistent with the Governor's workforce development priorities.

The California Workforce Investment Board (State Board) adopted vision statements regarding business services and lifelong learning that were not included in the WIA Initial/Supplemental Planning Narrative pages or the One-Year Extension for Program Year 2005–06. They were introduced last year in Guidance for Local Plan Modifications for PY 2006-07, via Addendum, item B.

The State Board vision statements:

- The One-Stop System, in collaboration with the economic development community, partners with California's business to provide best-in-class local services to business to support job retention and growth.
- The vision for lifelong learning, in the context of workforce development, is to enable current and future workers to continually acquire the knowledge, skills, and abilities required to be successful in the workplace.
- B. Describe how your local vision and workforce development strategy is consistent with the Governor's workforce development priorities [WIA Section 118(a)].
 - 1. Understanding and Meeting the Workforce Needs of Business and Industry in order to Prepare Workers for 21st Century Jobs

The OCWIB sought and obtained funding for the Workforce 2025 Report which will provide valuable labor market information for long range planning into the year 2025. The OCWIB conducts other research works in partnership with the Orange County Business Council to identify workforce and economic development trends and to design strategies to meet the challenges of the 21st Century. The Orange County Workforce State of the County report provides information on how Orange County can best address our many workforce challenges. The report provides current and projected workforce data that can facilitate strategic planning on how to improve business growth and training opportunities in the Orange County region.

2. Targeting Limited Resources To Areas Where They Can Have the Greatest Economic Impact

Maximizing resources continues to be a priority of the OCWIB. One of the OCWIB Strategic Goals are to "Design focused and outcome-driven cluster projects". This helps ensure that services and projects are targeted into occupational demand areas that will benefit both employers and job seekers. Another OCWIB Strategic Goal is to "Create diverse, sustainable funding courses and resources". Additional funding has been sought to meet the highly complex workforce needs of Orange County customers. The OCWIB's Fund Diversification Plan identified the following goals:

- Maximize and diversify resources that fund the overall One-Stop System
- Pursue appropriate funding opportunities available through Foundation grants
- Use industry cluster data to develop new and/or identify existing training programs and seek industry participation in funding the training
- Pursue appropriate grants and additional funding streams
- Expand capacity to access funds outside government offerings
- Consider how available dollars can be regionally leveraged
- Regionally plan to maximize existing resources

3. Collaborating to Improve California's Educational System At All Levels

Collaboration with the educational system is pivotal to the success of Orange County's One-Stop System. The priority for educational representation begins at the OCWIB level wherein education member representation greatly exceeds the WIA minimum mandates. In addition, Orange County is unique in that the competitively procured One-Stop operator is Coast Community College District. This provides opportunity for significant collaboration that directly links workforce development with the educational system. The OCWIB actively participates in working groups involving representatives from K – 12, local community colleges, universities, and the Orange County Business Council to work together on workforce and education challenges. The Orange County Department of Education is also represented on the OCWIB and is crucial to the delivery of services to youth.

4. Ensuring the Accountability of Public and Private Workforce Investments

Two of the major themes of this goal include "improving State and local coordination between partner agencies and programs" and "identifying and achieving administrative efficiencies and better service integration in California's workforce system." Coordination of partner agencies and programs at the One-Stop level is an ongoing challenge. Partner meetings help facilitate communication between agencies and the implementation of shared policies maximizes efficiency. Currently, new operating agreements are being negotiated that will help identify how the existing resources at the One-Stop can be most effectively managed. Regional collaboration in planning and grant submissions has not only resulted in increased funding to the region but has also strategically aligned the region to respond to the workforce needs that are unique to Southern California.

- C. Provide a description of your local strategies, based upon your local board's vision for business services, to improve the services to employers, and include in your description [WIA Section 118(b) (10)]:
 - 1. Your vision and strategic planning efforts for business services.

The OCWIB operates the Orange County One-Stop System in a cooperative fashion linking the One-Stop Centers and the Business Service Centers (BSCs) to provide a cost efficient, full menu of services to the business community that includes:

- No-cost Human Resources services, such as recruiting and screening candidates
- Free online job postings
- Topical Business Seminars
- Occupational testing
- On-the-job training
- Job fairs and workshops
- Outplacement services
- Rapid Response services when downsizing occurs
- Regional labor market information
- Wage information
- Unemployment service information
- Disability requirements and services
- Equal Employment Opportunity information
- Workforce demographics and latest cluster development reports and surveys

Area businesses recognize that BSCs are pivotal in the recruitment of qualified job applicants. BSCs are now known as "go-to" centers because of their proven ability to successfully match the skill sets of candidates with appropriate job openings. In addition, BSCs actively reach out to a variety of businesses that range from large cutting-edge corporations to smaller "mom & pop" businesses. BSCs continually monitor local trends and respond to changing business climates. BSCs also work closely with specialized populations. One recent example is specifically reaching out to recently separated veterans by establishing an on-site outreach center at the Los Alamitos Joint Forces Command Center.

2. How you use industry partnerships and other employer contacts to validate employer needs.

The OCWIB has successfully positioned itself as the partner to assist local chambers and county-wide organizations, such as local economic development corporations and local units of government, including local real estate trends as well. Our OCWIB members encompass a vast and diverse degree of talent and resources. OCWIB staff members sit on a number of representative committees throughout the region that work cooperatively with business to address short and long term workforce needs.

3. What actions the local board has taken, or plans to take, to ensure that local business services are not redundant and coordinated with partner programs such as Wagner-Peyser and Economic Development Corporations.

OCWIB members and staff serve on an array of committees that include WIA mandated partners. Representatives of Wagner-Peyser, Economic Development Corporations, and the Business Service Center staff also meet on a monthly basis to address layoff, retention, and recruitment needs for area employers.

4. How the local board measures the satisfaction of business services and how the data are used to improve services.

For measuring customer satisfaction, the Department of Labor (DOL) requires the use of the American Customer Satisfaction Index (ACSI). This index compiles scores from specific questions that address different dimensions of a customer's experience, and is calculated at the state level. Employers are surveyed within 60 days from when they have completed a substantial service or, if services are ongoing, when a full segment of services have been provided. In addition, when Business Service Center (BSC) staff conducts business related seminars employers are surveyed at its conclusion. With the completion of the JTA Employer Customer Satisfaction Form, the form is then provided to the state for customer satisfaction random sampling. Customers are randomly selected to be called and surveyed about the service that was provided by the business Service Staff. Data compiled from these forms generate monthly reports and are shared with area partner WIBs and relevant staff members as well. In order to provide frequent and constant feedback on achieving quality services annual monitoring is conducted by OCWIB staff in addition to ongoing monthly meetings amongst business service center peers and monthly one-on-one meetings with the OCWIB staff manager. Finally, as each BSC contract is annually renewed, each contractor is required to adhere to annual negotiated performance expectations.

D. Describe how the local board is addressing lifelong learning in the context of workforce development, through collaborative policy and planning. Specifically, describe how the local board will improve and promote access to lifelong learning in the next year. Include existing or planned efforts to leverage resources with local lifelong learning partners, including business and education [Guidance for Local Plan Modifications for PY 2006-07, Addendum, item B.]

The Orange County Workforce Investment Board is addressing lifelong learning in workforce development through collaboration with partners, businesses, and educational institutions. Included is the implementation of incumbent worker training programs and the identification of training needs of adults and dislocated workers through assessments. In addition, by using research specific to Orange County's workforce needs, trends, and career educational requirements, the OCWIB is able to forecast and plan for the training requirements for current and future employees within the industries that are high-growth and high-demand. This information is vital in the development of lifelong learning opportunities for all current and future partnerships and collaborations.

In the next year, the Orange County Workforce Investment Board will continue to promote lifelong learning through the training of workers within the healthcare and biotechnology fields. During the past three years, the OCWIB has been awarded \$3,720,363 in competitive grants to develop and implement lifelong learning opportunities such as leadership training programs for biotechnology workers, training

for surgical certifications for newly licensed Registered Nurses, degree programs for LVNs to obtain their RN degree and license, and has funding available to train adults and dislocated workers who want to enter the healthcare or biotechnology field.

Through collaboration with the Social Services Agency, the OCWIB works with the training providers for the Welfare-to-Work program, and is a partner in a career development program specific to foster youth who are nearing the age of independence.

III. LABOR MARKET ANALYSIS

C. What are the current and projected employment opportunities in the local area?

The current and projected employment opportunities are reflected in the Demand Occupation List for Orange County. The Demand Occupation List is updated after the State's Labor Market Occupational Projection is updated. The Demand Occupation List for Orange County is then approved by the Economic and Workforce Intelligence Committee (EWIC) and the Workforce Investment Board (WIB). The current Demand Occupation List was approved on July 17, 2007 by the EWIC and ratified on July 23, 2007 by the WIB. The current occupations in demand are reflected in Attachment 7.

D. What job skills are necessary to obtain such employment opportunities? [WIA, Section 118(b)(1)(C)]

Each of the opportunities reflected in the Demand Occupations List also contain the job skills needed to obtain employment. Of these occupations listed 2% require a LLD/MD Degree (First Professional Degree), 2% PHD Degree (Doctoral Degree), 5% MA/MS Degree (Master's Degree), 5% BA/BS + EXPER (Bachelor's Degree or Higher & Some Work Experience), 16% BA/BS Degree (Bachelor's Degree), 5% AA Degree (Associate Degree), 6% Post-Secondary Voc Ed (Postsecondary Vocational Education), 4% Work Experience (Work Experience in a Related Occupation), 10% 12-Month OJT=Long-Term On-the-Job-Training, 20% 1-12 Month OJT (Moderate-Term On-the-Job-Training), and19% require 30-Day OJT=Short-Term On-the-Job-Training. For details see Attachment 7.

IV. LEADERSHIP

C. How will the local board provide a leadership role in developing policy, implementing policy and oversight for the local workforce investment system? [WIA, Section 117(d)(4)] Include in this discussion a description of your local board composition.

In addition to information contained within the 5-Year Plan and subsequent modifications, the OCWIB Bylaws will be modified to ensure compliance with the new membership parameters set forth in SB 293. Currently our local board holds a majority of private sector business representatives of the local area. Our local board also includes representatives of local educational entities, representatives of labor organizations, representatives of community-based organizations, representatives of economic development agencies, and representatives of each of the one-stop partners.

Additional union members, who are recruited by local chambers of commerce, are in the process of being appointed for board membership.

- E. How will the local board meet the requirement that neither the local board nor its staff provide training services without a written waiver from the Governor? [WIA, Section 117 (f) (1) (A) and (B)]
 - 1. If the local board plans to provide training services, describe which service. If a waiver is to be sought, a request for Waiver of Training Prohibition must be submitted for each specific training program.

Local plan will not provide direct training services. Training services as described in WIA Section 134(d) are not provided by the OCWIB or staff. Should OCWIB decide to provide training services, a waiver request will be submitted to the Governor in accordance with WIA, Section 117 (f) (1)(B).

V. LOCAL ONE-STOP DELIVERY SYSTEM

A. Describe the One-Stop delivery system in your local area. Include a list of the comprehensive One-Stop Centers and other service points in your area.

Below is an updated listing of One-Stop Centers serving Orange County:

ONE-STOP CENTERS SERVING ORANGE COUNTY				
Anaheim Career Employment Center 50 South Anaheim Blvd., Suite 300, Anaheim	Anaheim WIB			
Employment Development Department 2450 East Lincoln, Anaheim	/ Widirelli Wib			
Orange County One-Stop and Business Service Center [Northern Region] 5405 Garden Grove Blvd., Westminster	Orange County WIB			
<u>Satellite:</u> 1561 E. Orangethorpe Avenue, Fullerton				
Orange County One-Stop and Business Service Center [SOUTHERN REGION]	Orange County WIB			
125 Technology Drive, Irvine				
Santa Ana W/O/R/K Center 1000 E. Santa Ana Blvd., Suite 200, Santa Ana	Santa Ana WIB			

F. What is your plan for administering Individual Training Accounts (ITAs) as defined in [WIA, Section 134 (d) (4) (G)], including any limitations you plan to impose on ITAs established in your area. If your local board providing training services that are made as exceptions to the Individual Training Account process, describe the process you used to procure and justify these exceptions. This

process must include a 30-day public comment period for interested providers. [20 CFR Sections 661.350 (a) (5) and (10) and 20 CFR Section 663.430(a)]

In accordance with WIA Section 134 (d)(4)(G), Individual Training Accounts are administered through the One-Stop Center. Prior to the issuance of an ITA, participants must receive a continuum of services in at least one of the Core and one of the Intensive service categories. [WIA Section 134(d)(4)(A)(i)]. After receiving at least one Core Service and one Intensive Service, a participant may be considered for a referral for Training Services. Participants must be assessed and specific barriers to employment must be identified and documented in the case file. Before referring a participant to training, case managers must consider the appropriateness of training for the individual participant.

On October 24, 2007, the OCWIB will be ratifying the following components of the ITA policy:

- Tuition cap of \$6,500.00 If the training program tuition is less than \$6,500.00, the remaining balance shall not be used for the participant to enroll in an additional training program.
- The duration of the training shall not exceed 24 months, 4 semesters, or 6 quarters.
 Exception: A participant requiring a break in service will be able to continue their approved training program upon re-entry to the program, with the total training time to not exceed 24 months, 4 semesters, or 6 quarters.
- Individual Training Accounts shall be established only for those participants that reside in Orange County.
- Individual Training Accounts shall be established for participants that have not received WIA funding training during the previous 24 months and that meet all other eligibility criteria.

The OCWIB does not provide training services that meet the exception criteria as established by WIA Section 134 (d)(4)(G)(ii).

M. What local policies and strategies are in place to ensure that, pursuant to the Jobs for Veterans Act (P.L.107-288)(38 USC 4215), priority of service is provided to veterans (and certain spouses) who otherwise meet the eligibility requirements for all employment and training programs funded by the Department of Labor, in accordance with the provisions of TEGL 5-03 (9/16/03/)? Include in your discussion how this policy is shared with all of the One-Stop Career Center partners and if/how you conduct outreach to veterans and veteran organizations to encourage use of One-Stop Career Center services. How will you ensure that veterans receive priority in the local One-Stop system for Wagner-Peyser funded labor exchange services? [State Planning Guidance IV.B.9. and WIA, Section 121(b)(1)(B)(ii)].

The Orange County Workforce Investment Area's Prioritization of Services Policy (Information Notice No. 04-OCWDA-21 Revised, dated January 26, 2006) provides guidance regarding the prioritization of adults who receive Intensive and Training Services delivered through the Orange County One-Stop system. This policy includes Veteran's Priority Provisions.

The Orange County Workforce Investment Board (OCWIB) has established four groups for prioritization of services. The priority of individuals served does not change basic eligibility criteria for the program. An individual must first qualify for the program before priority of service is applied.

The first priority must be given to Veterans seeking Intensive and Training Services through the OCWIB One-Stop Centers. All eligible Veterans must be offered intensive services before individuals in any of the other priority categories. These individuals do not need to meet any income guidelines. A Veteran is defined as any individual who is:

- A. A veteran; OR
- B. The spouse of any of the following individuals:
 - Any veteran who died of a service-connected disability; OR
 - ii. Any member of the Armed Forces serving on active duty who, at the time of application for assistance under this section, is listed, pursuant to section 556 of title 37 and regulations issued there under, by the Secretary concerned in one or more of the following categories and has been so listed for a total of more than 90 days: (I) missing in action, (II) captured in the line of duty by a hostile force, or (III) forcibly detained or interned in the line of duty by a foreign government or power; OR
 - iii. Any veteran who has a total disability resulting from a service-connected disability; OR
 - iv. Any veteran who died while a disability so evaluated was in existence.

The other priority groups for the Orange County Workforce Investment Area include: economically disadvantaged adults; older workers (55 and older); former foster youth; the disabled; school dropouts, and offenders, and underemployed workers who are in need of intensive and training services.

The Prioritization of Services Policy is part of our Technical Assistance Guide (TAG) and is distributed to all staff and contractors involved in One-Stop service provision. The policy is frequently discussed in staff meetings as well as in our partner manager meetings.

Outreach to Veterans occurs on a regular basis. As a co-located partner with EDD, the Veteran's Services Specialists and One-Stop Workforce staff collaborate on a continual basis – whether the focus is on job fairs, referrals, or co-enrollments.

The OCWIB has recently completed the first year of the Operation Veterans Employment and Training Services (VETS) Project. This project is a collaborative endeavor dedicated to providing specialized services to recently separated veterans transitioning to sustainable employment. A unique aspect of this program is the establishment of an Employment Transition Center located on site at the Joint Forces

Training Base in Los Alamitos. Veterans have access to an extensive array of resources, supportive services, workshops, assessment, case management, educational opportunities, and specialized training tailored to their individual needs. Job development services are also provided to assist the Veterans in obtaining meaningful, gainful employment that allows them to attain financial independence and successful integration back into the community.

The Orange County Workforce Investment Area's staff and contractors are dedicated to providing quality employment sd er;; sd training opportunities and will continue to make services to Veterans our highest priority.

R. How will your local board ensure continuous improvement of eligible provides of services through the system and ensure that such providers meet the employment needs of local employers and participants? [WIA Section 118 (b) (2) (A)] Describe and assess the adult and dislocated worker employment and training services that will be available in your local area. [WIA, Section 118 (b)(4) (5)].

One-Stop, Business Service, and Youth providers are competitively procured which helps ensure a high quality of services are delivered to our customers. In addition, providers continually respond to customer feedback by implementing their suggestions for improvement or modification into the delivery system. Front line staff is encouraged to initiate new and better ways to provide services based on customer comments. New training providers are continually recruited based on occupations in demand that respond to the needs of local businesses and job seekers. Currently, the OCWIB Demand Occupation List is being updated and will help guide the training provider recruitment efforts. Youth Providers work with youth to suggest applicable classes and vendors contingent on current needs of local employers and participants.

The OCWIB will be releasing a new RFP in December, 2007 for the One-Stop delivery system. A variety of policy issues are being discussed in preparation for the development of the RFP. Our procurement process will ensure that the Orange County Workforce Investment Area continues to foster a seamless system of service delivery that will enhance access to the programs' services and improve long-term employment outcomes for individuals receiving assistance.

The Industry Cluster Demand Occupation List is used to determine the types of training programs that will be available for Individual Training Accounts. Thus, the general criterion for determining a Demand Occupation includes:

- Occupational projected growth must be equal or greater than County average for a specified 10 year period. Current projected growth is 18%.
- Occupation must have an estimated entry level wage equal to or greater than the hourly wage as approved by the EWIC and WIB. Current wage is \$9.91.
- Occupation should have at least 100 persons in that classification in Orange County during a specified year.
- BLS Education/Experience training requirement should be less than a Bachelors /Masters Degree. Displaced workers already with a degree may receive short-term transition training for higher education occupations.

Individual Training Accounts

Requirements:

Amount and duration of ITAs based on market rate for local training programs.

Action Item was approved by the WIB Agenda on October 24, 2007. A written policy was disseminated to WIA providers and contractors.

WIA allows local boards to establish a maximum tuition cost and duration of training [20 CFR 663.420]. The tuition cap established by the OCWIB shall be used for one training program per participant. The recommended tuition cap is \$6,500.00 and the duration of training is recommended not to exceed 24 months. If the training program tuition is less than the tuition cap, the remaining balance shall not be used for the participant to enroll in an additional training program. If the tuition is greater than the tuition cap, the participant must obtain the additional funding.

How local market rate is determined and used.

The Industry Cluster Demand Occupation List for Orange County is updated after the State's Labor Market Occupational Projection is updated. Industry Cluster Demand Occupation List for Orange County is then approved by the Economic and Workforce Intelligence Committee (EWIC) and the Workforce Investment Board (WIB).

The Industry Cluster Demand Occupation List is used to determine the types of training programs that will be available for Individual Training Accounts. Thus, the general criterion for determining a Demand Occupation includes:

- Occupational projected growth must be equal or greater than County average for a specified 10 year period. Current projected growth is 18%.
- Occupation must have an estimated entry level wage equal to or greater than the hourly wage as approved by the EWIC and WIB. Current wage is \$9.91.
- Occupation should have at least 100 persons in that classification in Orange County during a specified year.
- BLS Education/Experience training requirement should be less than a Bachelors /Masters Degree. Displaced workers already with a degree may receive short-term transition training for higher education occupations.

Any other factors taken into consideration and final decision on ITAs.

If an occupation is within one of the Orange County defined Industry Growth Clusters, the EWIC may determine that not all of the above criteria needs to be met. Specific data requirements relating to growth averages, top occupations, entry level wage, and education/experience are released when approved by EWIC and the WIB. If there is a change in both the occupational projected growth and the average training placement wage, training programs listed on the local Approved Training Partner Directory (ATPD) that no longer meet the criteria will be placed in suspension pending approval from the EWIC for their continued inclusion on the ATPD. Suspended training programs that are not approved by the EWIC will be permanently removed from the ATPD.

<u>Training Services for Job Seekers</u> Requirements:

Training services must be available to individuals who have selected a program of services directly linked to demand occupations in the local area. WIA funds may be used for training for occupations located outside the local area in which the job seeker is willing to relocate [WIA Section 134(d)(A)(iii)].

Prior to the issuance of an ITA, participants must receive a continuum of services in at least one of the Core Services and one of the Intensive Service categories. [WIA Section 134(d)(4)(A)(i)]. After receiving at least one Core Service and one Intensive Service, a participant may be considered for a referral for training services. Participants must be assessed and specific barriers to employment must be identified.

S. MEMORANDUM OF UNDERSTANDING (MOU):

WIA requires that a Memorandum of Understanding (MOU) between the local board and each of the One-Stop partners concerning the operation of the One-Stop delivery system be executed. As referenced on page 6, a copy of each MOU must be included with the plan. [WIA Section 118(b) (2) (B)]

The MOU may be developed as a single umbrella document, or as singular agreements between the partners and the board. The MOUs should present in overseeing the operations of the One-Stop career center system.

Identify those entities with who you are in the process of executing an MOU. Provide a status of these negotiations. [Interim Final Rule §662.310 (b)]

Five (5) MOUs were approved by the Orange County Board of Supervisors on September 25, 2007.

- The City of La Habra
- The BRIDGE
- Irvine Unified School District
- The California Hispanic Commission on Alcohol and Drug Abuse (La Familia)
- The Department of Rehabilitation

To accurately reflect present working relationships new Memoranda of Understanding and cost sharing agreements may be negotiated with partners operating at the comprehensive One-Stop Centers and satellite facilities as changes in funding and services occur. Mandated partner resource allocation continues to challenge the system. It is anticipated that new MOUs may be negotiated in the 2007-08 program year, pending reauthorization of WIA and resultant new requirements, as necessary.

VI. YOUTH ACTIVITIES

An RFP process was completed in 2006 to procure youth providers beginning 2007-08. The current youth contractors based on the final results of the procurement process are as follows:

- The BRIDGE
- The California Hispanic Commission on Alcohol and Drug Abuse (La Familia)
- · City of La Habra
- Irvine Unified School District
- D. Describe you area's eligible youth population and needs in general. Describe and assess the type and availability of youth activities in the local area. Include an identification of successful providers of such activities. [WIA, sections 118(b)(6)]

Orange County youth face multiple barriers regarding career technical training, post-secondary education, apprenticeships and/or employment in the identified top ten high wage/high growth occupations. The vast majority of 11th graders in Orange County show only "basic", "below basic", or "far below basic" achievement in math and science according to standardized test results and fewer than 25% of all students take upper level math and science courses. Additionally, almost 30% of Orange County students are designated as English language learners.

Approximately 400 WIA eligible youth countywide are served on an annual basis, including the hardest to serve such as out-of-school youth, foster/emancipated youth, ex-offenders, and youth with disabilities. The regional demographic breakdown of countywide participants is as follows:

Youth Regions and Provider	% of eligible youth
Western, City of La Habra	29.0%
Northern, City of La Habra	22.1%
Coastal, Irvine Unified School District and The BRIDGE	27.8%
Southern, The BRIDGE and CHCADA/La Familia	21.1%

Supported by regional networks of workplace partners, community and faith based organizations and multi-disciplinary youth serving entities from the education, social services, juvenile justice systems, and the current (abovementioned) youth providers offer access to the following 10 elements:

- Tutoring, study skills training, instruction, and drop-out prevention
- Alternative secondary school offerings, with Orange County Department of Education ACCESS Division or regional districts' continuation schools
- Summer employment activities
- Paid or unpaid work experience

- Occupational skills training
- Comprehensive guidance and counseling
- Leadership development opportunities
- Supportive services
- Adult mentoring
- Follow up services
- F. Describe how your local area will meet the Act's provisions regarding the required youth program design elements: [WIA, Section 129(c)(2)(A) through (J)]
 - 1. Intake and Objective Assessment

Youth participants undergo a thorough assessment to determine their academic skills (through school records and basic skills testing), occupational skills (through pre/post testing and other tools), prior work experience (through interviews, resumes, applications, etc.), employability, interests and aptitudes (through interest survey tools like CHOICES, etc.), and other (supportive) service needs. Assessment results are incorporated into the development of the youth's individual service strategy. The LWIA and its providers ensure that WIA youth participants are receiving appropriate WIA activities and services through regular case management, updating of youth's individual service plan documentation, and monitoring.

VII. ADMINISTRATIVE REQUIREMENTS

F. What process will be used to allow public review and comment for specific performance outcomes and measures when these have been negotiated?

Public review and comment for specific performance outcomes and measures may occur at WIB or Committee meetings.

VIII. ASSURANCES

- P. The Orange County Workforce Investment Board assures that when work-related issues arise at One-Stop Centers between State employees and operators or supervisors of other partners, the operator or other supervisor shall refer such issues to the State employees' civil service supervisor. The One-Stop Career Center operators and partners shall cooperate in the investigation of the following matters: discrimination under the California Fair Employment and Housing Act (Part 2.8 [commencing with Section 12900] of Division 3 of Title 2 of the Government Code), threats and/or violence concerning State employees, and State employee misconduct.
- Q. One-Stop Operator is responsible for administering One-Stop Center services in accord with roles to be determined by the Local Workforce Investment Board. The Orange County Workforce Investment Board assures that it will select the One-Stop Operator with the agreement of the Chief Elected Official, through one of three means:
 - 1. Through a consortium of at least three or more required One-Stop partners; or

- 2. Through competitive process such as a Request for Proposal; or
- 3. It may serve as the One-Stop Operator directly but only with the consent of the Chief Elected Official and the Governor.

The only time these selection procedures are not required is in the following circumstances inclusive: the One-Stop delivery system, of which the operator is a part, existed before August 7, 1998; the existing One-Stop system includes all of the required One-Stop partners; and an MOU has been executed which is consistent with the requirements of the Act. [WIA: Section 121(d) (2) (A) and Regulations, Section 662.4.10].
